FirstMile Customers, Partners and Vendors,

It has recently come to our attention that some local news outlets have run stories about a shutdown in sales operations of The Estridge Group's production home building company. As many of you may know, we were founded by Paul Estridge Jr. in 1999. We have been a very proud member of The Estridge Companies, but realize that these stories may raise questions and cause unnecessary stress and anxiety for you.

In the past few years, FirstMile Technologies has operated as a separate and self-sustained company. As such, FirstMile will continue to do business in the way you have become accustomed to, independent of the unfortunate struggles being realized by our founding company. We also look forward to the continued opportunity to expand on those opportunities well into the future.

If you have any further questions, please don't hesitate to contact us using the information below.

Sincerely,

Craig Kunkle
Vice President
FirstMile Technologies
317-569-2800
